ATTN.: CERTIFICATE OF CORRECTIONS BRANCH

REQUEST FOR CERTIFICATE UNDER 37 CFR 1.323

Sir:

In accordance with the provisions of 37 CFR § 1.323 of the Rules of Practice implemented by 35 USC 255, the Patent and Trademark Office is respectfully requested to issue a Certificate of Correction in the above-identified patent to correct a material error in the printed patent document.

The error is described below with reference to its occurrence in the application and corresponds to the change listed on the attached Form PTO/SB/44.

JUN - 6 2007

Applicant's claim 53, as it appeared in the application, is quoted below:

"53. The floor pedal device according to claim 27, wherein each ASIC circuit and microprocessor unit are programmable via a connector plug of the rotational angle sensor."

This claim, which was renumbered as claim 28 by the Examiner, should have been made dependent by the applicant from claim 26 (not claim 27). Claim 26 became claim 19 of the patent. Therefore, claim 28 should be made dependent from claim 19.

It is noted that claim 28 is presently identical to claim 32, which is also dependent from claim 27, so that it is clear that an error has been made.

This error is the fault of the applicant/patentee and is merely formal in nature and does not change the scope of protection of the patent nor require reexamination.

Since this mistake is not obvious from the printed text, it is believed to be in order for the Patent and Trademark Office to issue a Certificate of Correction in accordance with the two copies of the enclosed Form PTO/SB/44 and to place such a Certificate of Correction in the file so that such will appear on any copies of the patent which are ordered in the future.

Moreover, since this mistake is that of the patentee, such should be done with a charge of \$100. Enclosed herewith is a check in the amount of \$100 to cover this charge. Please charge any insufficiency of fees or credit any excess to Deposit Account No. 50-0427.

It is respectfully requested that when the above-requested Certificate of Correction has been issued and entered in the file that a certified copy of the Certificate of Correction be duly returned to the undersigned attorneys for the patentee.

Respectfully submitted,

By 
Karl F. Milde, Jr.
